# PP Chemical Storage Cabinet
# LX3050CSC

**Email:** info@labdex.com **website:** www.labdex.com

## Description

PP Chemical Storage Cabinet LX3050CSC is made of high-quality polypropylene with seamless welded construction for superior corrosion resistance and durability. The unit feature adjustable shelves, secure padlock access, and an integrated temperature and humidity control system.

## Specifications

| | |
|---|---|
| **External dimension** | 900 x 450 x 1800 mm |
| **Hook** | 2 mm Thick stainless steel |
| **Window** | 5 mm Thick tempered glass |
| **Height adjustable shelves** | 3 |
| **Fixed shelf** | 1 |
| **Lock** | Multi-point lock |
| **Packing dimension** | 2000 x 400 x 1360 mm |
| **Gross weight** | 160 Kg |

## Features

- Specialized fan and duct system integrated to control temperature and humidity
- Seamless welded polypropylene structure for strength and chemical resistance
- Galvanized or epoxy-coated steel for durability and corrosion protection
- High-quality, integrated hinges for smooth and durable operation
- Adjustable stainless-steel shelves to maximize storage space
- Tempered glass window with steel reinforcement
- One-piece, ergonomic plastic handle for easy use

- Padlock system for secure operation

## Applications

- Used for the safe storage of acids, alkalis, solvents, and other hazardous chemicals in laboratories, research facilities, and industrial environments, ensuring secure, organized, and corrosion-resistant chemical management.
